

### Toroidal Transformer Insulating Discs

We are engaged in offering a comprehensive range of Toroidal Transformer Insulating Discs. These are especially designed to suit the applications of energy meter in diverse industries. In its secondary winding proportion, it transfers current to the alternating primary current flowing in its primary. Our transformers can be availed in both standard and customized options as per the needs of our clients.

### Isolator Housing

Our company is regarded as one of the pioneers engaged in offering a wide range of superior grade Isolator Housing. These are manufactured using the superior quality mild steel and steel. Our housed multi spring vibration isolator is highly appreciated in the markets. These housed multi spring vibration isolator is very popular due to its high strength and effective performance.

### Rly. Motor Spindle Bush

Our esteemed clients can avail from us the best quality range of Rly.Motor Spindle Bush. These are highly appreciated for its efficient operation, which is widely used in Railway industries. We take into account the diverse needs of different industries and offer suitable range of Rly.motor Spindle Bush. The entire range is offered at market competitive prices.

### Rocker Ring

We present an impregnable range of valve Rocker Ring. This premium quality Rocker Ring is very popular in the international market segments for its dimensional accuracy, proper fitment, effective performance and durability. We make use of the finest grade raw materials that are procured from reliable vendor base of the industry.

### Synchronous Step Motor Covers

We are engaged in offering a wide range of Synchronous Step Motor Covers. These Synchronous Step Motor covers are extensively used to protect the motor against rust and any outside element, which can affect the motor badly. The entire range of products is used in different industries for safeguarding their motors. We offer these products at market leading price range.

### Diode Disc Support Block

We are one of the renowned manufacturers and suppliers of a wide assortment of Diode Disc Support Block. This premium grade Diode Disc Support Block is widely used for supporting purposes in different industries. We take into account the diverse needs of various industries and offer suitable range of products. Thus, these products are appreciated in the industry.

### Compressor Terminal Plate

Our company is engaged in the manufacturing, supplying and exporting the most sought after range Compressor Terminal Plate. These Terminal Platte for Compressors are designed and manufactured using duly tested components and offer continuous duty. The main uses of these products include Wiring harnesses, Electrical gadgets, Mechanical instruments, Automobiles and Telephone distribution.

### 20 AMP Gland Kits

We are one of the leading manufacturers, exporters & suppliers of the most sought after range of 20 AMP Gland Kits. These high performing 20 AMP GLANDs have high strength and are widely appreciated for their resistance and sturdy nature. Our precisely engineered kits serve diverse industrial applications. We offer the entire range of products in line with international quality standards.

### FRP Covers

We are engaged in the manufacturing of a wide range of Frp Covers for Octagonal Poles. In order to attain optimum client satisfaction, these Frp Covers For Octagonal Poles are offered at customized options. We offer the entire range only after checking them in our internal quality control department. Thus, these products are very popular in the industry.

## Switch Box With Feed Terminal Plate

With the active support of our team of experts, we are engaged in offering the most sought after range of Single and Double Switch Box with feed Terminal Plate. This high performing Switch Box With Feed Terminal Plate are offered in conventional designs and are also customized as per the specific requirements of our clients. We offer the entire range as per the needs of our clients.

## Busbar Stiffener

Leveraging on our enriched industry experience, we are engaged in offering a huge variety of Busbar Stiffener. These products are designed and manufactured using superior grade fiber class sheet. Due to their heavy mechanical strength and high insulation resistance, our Busbar Stiffeners are used for bus bar support in control panels and bus ducts. The entire range of products are quality tested in our unit.

## Terminal Boards

We are engaged in offering a wide range of Terminal boards for Alternators. These Terminal Boards For Alternators are available in existing designs and also can be offered in customized options, as per the needs of our clients. We offer the entire range of products in line with the parameters and norms set by the industry. These Terminal Boards For Alternators are widely used in electrical and mechanical industries.

### Fly Wheel Bracket

Our esteemed clients can avail from us the best quality range of fly wheel bracket. These products are offered in different technical specifications as per the diverse requirements of our clients. Flywheel bracket offered by us is widely appreciated for its wide industrial usage. These are featured with durability, high quality and optimum performance.

### Motor Plate Pillar Tap

Our company is engaged in manufacturing and supplying of a wide range of Motor Plate Pillar Tap. These products are effective in easy mounting varieties of motors in various kinds of machines. Our range of Motor Plate Pillar Tap are appreciated all across for their splendid features and effective results. Considering the requirement of customers, we also customize the products as per the need of customers.

### Cable Cleat

Our clients can avail from us the best quality range of Cable Cleat. These high performing products offered by us are extensively used in a wide range of electrical appliances and accessory products. Our superior make products are available in both standard and customized finishes, as per the needs of our international clients. Thus, these products are very popular in the global markets.
